A POISONING CONSPIRACY

THE PLOT REVEALED.

Non-Union Workmen at the Homestead Pa., Mills, the Victims.

Deputy Sheriff Patrick J. Farrell of Pitts burg, accompanied by A. A. Ester, arrived in Frankfort, Ky., Wednesday afternoon to procure from the governor a warrant of arrest for Robert Beatty, who is now confined in the Louisville jail, charged with being a fugitive from justice. Mr. Farreil came here direct from Pittsburg, while Mr. Ester has bren in Louisville for several days in charge of the case. Deputy Farrell laid before Gov Brown the requisition from Gov. Pattison. and other documents, including the afficiavit sgainst Beatty and the testimony upor which the affidavit was issued.

Beatty is charged in the affidavit with administering potson to William E. Griffi h, a non-union work man at the Carnegie mills at Homestead. The original warrant for the arrest of Beaty was issued upon information furnished by J.H. Ford, but before the war rant could be served Beatty left Allegheny county, and his whereabouts were not known until he was arrested, in Louisville a fea days ago. Since his arrest, and while the authorities were waiting for the necessary papers to arrive from Pennsylvania, be has lought by means of habeas corpus proceed ings to be released.

ings to be released.

His writ of habeas corrus was refused by Judge Toney of the Louisville law and equity court, and now that the officer from Putsburg has arrived and procured the warrant from tios. Brown the prisoner will be taken back to Putsburg for trial.

The crime for which fleatly is to be tried is the poisoning of several non-union workmen at the Homestead mills has September, and the organal warrant against Beatly war issued by James Mounters, a justice of the peace of Ailegheny esting, upon the testimony of Patrick Gailingher, who is himself implicated in the crime, and of J. H. Ford, who overheard some of the conversation of the conspirators.

who overheard some of the conversation of the conspirators.

Gallagner's confession goes on to state that he was employed as a cook at one of the restaurants upon the Carnegie mill property and that on some day between the 21st and 24th of August he was spoken to by Beatry in Pittsourg about putting something in the tea or ceffee of the workmen, the object being to make them sick.

On the following day B-arty and himself in company with J. M. Davisson and H. F. Dempsey, had a conversation in regard to procuring the stuff to be put in the tea or coffee. Croton oil was suggested, but the idea was not favorably considered by Gallagher or Daydson, who objected on the ground that it was dangerous to use croton oil.

ground that it was dangerous to use croton oil.

Gallagher says he was told to come back every day or two to see whether the stuff had been procured and that on the 7th or 8th of September he received from Dempsey a bottle conts ning three yellow powders. He was told that there were three doss and one powder was sufficient for thirty gallons of tea or coffee. Gallagher says he placed one of the powders in the tea which was drink by the workmen in restaurant No. 1, and that several were taken suck and prevented from working.

Gallagher says that sometime during the month of September Beatty gave him three powders, which tooked like those Dempsey had given him. He used them in the same manner and they made many workmen suck, Griffin being one of the number. Gallagher says that he received from Beatty in maney \$2 at one time and at another \$1.

J. H. Ford testifies to having beard some conversation between the conspirators in regard to the matter. This is the substance of the testimony taken when the warrants were sworn out.

TRAIN ROBBERS THWARTED.

Masked Men Disarmed by Passengers and Trainmen, After Fatally Shoot-

ing One Man, but They Escape. Four masked men attempted to rob the passengers on the Chesapeake and Ohio midnight train within the city limits of Huntington, W. Va., Tuesday night. The train was just pulling out of Huntington when two men entered the passenger coach from the smoker. Both wore slouch bats, pulled well down over their eyes. They stationed themselves each at a door of the car, masked themselves and, without warning, began firing with their revolvers right and left, to terrify the passengers.

A Cincinnati man named Tuck, who, with his wife, was on a bridal tour to Gerwith his wife, was on a bridal tour to ther many, jumped up and grappled with the robber nearest him, but the desperado knocked him down, and, his companion running up, shot Tuck through the head, inflicting a fatal wound. The train collect or and several passengers then attacked the two men, and succeeded in wrestling their revolvers from them. When they were de prived of their weapons the fellows leapest from the train and eccaped. Immediately upon arrival in Guyandotte the train officials gave the alarm, and a posse was organized to run the men down.

In the se file on the train a passenger named Peter Brake, of Cincinnati, was shot through the foot.

named Peter Drake, of Cincinnati, was shot through the foot.

THE THAIN ROBBERS CAUGHT.

Chief of Police Turner of Huntineton, W. Va., cleared up the Chesap-ake and Ohio vestibule train roboery and murder by the arrest of Tom Col ins. at Bradrick. just a ross the river in Ohio, charged with the murder of the German possenger and being a confederate of Burreil Forgy, who was placed in custody last might. The chain of evidence is complete Cappain Samuel Matteson, of Charleston, has identified the man. Collins is in jail in Huntington, which place is heavily guarted, while Forgy is alliewed to remain at his home on Virginia avenue, under guard, where he is suffering from the wound in his right shoulder made by the ticket collector's bullet.

It is expected that a special Grand Jury will be called, the men indic cd, tried and punished inside of two weeks. The city is greatly excited, and there is danger of a mob taking the law into their hands. Fif y extra police have been sworn in. The coat found with a scorched bullet hole, corresponding to the location of Forgey's wound, has been identified by Clothier A. G. Northcott as sold to Forgey. A pistol bought by Collins from Jim Saunders was one of the two captured on the train. Mr. McBride, a railroad man, who was on the train at the time of the trouble, this norning recognized the prisoners as the train robbers.

The Government in Possession.

The American flag now floats from the Administration building at Jackson park Chicago to signify that the World's Fair buildings and grounds are in possession of the United States Government. Vice President Morton accepted them on behalf of the possession was not taken until Director General Davis, the chief Government World's Fair official moved into the Administration building. The raising of the stars and stripes signaled that event.

FOUR KILLED BY A TORNADO. The Storm Levels Everything in Its 300-Yard Wide Path.

A tornado passed two miles above Summit, Miss. The house of Rev. S. R. Young, a Baptist minister, was completely demolished and the occupants were buried in the ruins. Relief parties were organized at once and a search was made for the victims. Mrs. Young and family were rescued from the ruins of their dwelling, all daugerously wounded. The four persons killed are a 6 year-old daughter of S. A. Lowe, William A. Freeman, colored; a colored woman, name unknown, and a colored baby, not identified. Many persons were badly wounded. The storm, which was 300 yards wide, carried everything with it. Large pine trees were uprooted and blown to pieces. The dweiling of S. A. Lowe was completely de. stroyed, his household effects being scatter-

PERISHED IN PHEIR CELL. Two Lock-up Prisoners Scalded to Death While They Slept.

Simon Mitchell, an old resident of Batavia, Ill., was locked up in the city jail for intoxication, together with William Fitch, from Ohio. The room in which the men were confined is heated by steam pipes. Through some unknown cause an explosion occurred, which filled the 100m with hot steam that literally burned the prisoners to death before they could be rescued.

Minneapolis Flour Output.

The "Northwestern Miller" (Minneapolis) eays: The mills made another big run last week, the output being the heaviest in three weeks. Certain mills did the best they bave on this crop, a very fair water power aiding them consideraly. The aggregate production for this week was 194,500 barrels.

Major F. H. The agri-cultural communities of the Empire are managed on a plan which com-pels the cultivators of the soil to give up his farm every third year, and as a consequence the productive capacity of the land is being rapidly exhausted. Moreover, the forests of the Ural border have been cut away by millions of acres, and the cold northeast winds now sweep unobstructed over the open plains of the Volga country, and cover the fields with ruinous sand drifts.

BARON WALTER of Hungary offered to trade his title for a wife. It was not much of a title, but an opera singer snapped it up. She said she was 27 and had 300,000 florins. ROYAL

Best Baking Powder

The Official Government Reports:

The United States Government, after elaborate tests, reports the ROYAL BAKING POWDER to be of greater leavening strength than any other. (Bulletin 13, Ag. Dep., p. 599.)

The Canadian Official Tests, recently made, show the ROVAL BAKING POWDER highest of all in leavening strength. (Bulletin 10, p. 16, Inland Rev. Dep.)

In practical use, therefore, the ROYAL BAKING Powner goes further, makes purer and more perfect food, than any other.

Government Chemists Certify:

"The Royal Baking Powder is composed of pure and wholesome ingredients. It does not contain either alum or phosphates, or other injurious substances.

"EDWARD G. LOVE, PH. D."

"The Royal Baking Powder is undoubtedly the purest and most reliable baking powder offered to the public.

"HENRY A. MOTT, M. D., PH. D." "The Royal Baking Powder is purest in quality and high est in strength of any baking powder of which I have knowledge. "WM. MCMURTRIE, Ph. D."

The Government Report shows all other baking powders tested to contain alum, lime or sulphuric acid.

Corot was more subjective, tingeing his works with his own peculiar poetic fancy. Daubigny, on the other hand, gave himself up more to the impression of the moment, enceavoring to express the local qualities of form and color in all their brilliancy and freshness. He did not reach perfection of style at the beginning of his career, but through most devoted study, guided by the native strength and originality of his views; nor did this high epoch of landscape art come hastily or accidentally, but was made possible by the united efforts of many men and minds working together during the first half of our century.
